Dear Dr. Ettlinger,

As a follow-up to our meeting with you on July 10, 1996, enclosed are DOE's crosswalks for Order 460. 1, Packaging and Transportation Safety and Order 225.1, Accident Investigations. We believe that these crosswalks were previously delivered to the Defense Nuclear Facilities Safety Board, but we are not certain whether the most recent version, dated December 19, 1995, was made available for your review.

Sincerely,

Richard L. Black, Director
Office of Nuclear Safety Policy and Standards
