

Department of Energy

Washington, DC 20585

March 14, 2001

The Honorable John T. Conway
Chairman
Defense Nuclear Facilities Safety Board
625 Indiana Avenue, NW
Suite 700
Washington, D.C. 20004

Dear Mr. Chairman:

Consistent with the Department's implementation plan for Defense Nuclear Facilities Safety Board Recommendation 2000-2, I am forwarding information concerning Deliverables 2 and 3, due in November 2000 and February 2001, respectively under the implementation plan.

Commitment 2 calls for Cognizant Officers to develop lists of vital safety systems at their defense nuclear facilities and sent the lists to the Federal Technical Capability Panel. Commitment 3 calls for the Department to complete Phase 1 assessments of safety class, confinement ventilation, and fire protection systems at the list of priority facilities in Appendix E of the Implementation Plan. The vital safety system lists and the Phase 1 assessment results for Savannah River are enclosed. Vital safety system lists and assessment results for all other sites are being sent separately.

The Department has completed Commitments 2 and 3 and proposes closure of these commitments.

Matter transmitted contains Unclassified Controlled Nuclear Information (UCNI). When separated from enclosures, this transmittal document does not contain UCNI.

Sincerely,

A handwritten signature in black ink that reads "Steven Cary".

Steven V. Cary
Acting Assistant Secretary
Office of Environment, Safety and Health
