

Mike Mallory, President & General Manager, BWXT Pantex

As BWXT President and General Manager, Mike Mallory offers a unique background of DOE and commercial operations, engineering and program management experience. He served as the BWXT Pantex Vice-President and Deputy General Manager from February 2001 to February 2003. In addition, he supervised all program management functions and the company's Six-Sigma quality initiative. Prior to coming to Pantex, Mr. Mallory garnered more than 20 years of experience in DOE with the company's Kansas City Plant, which manufactures components for DOE's nuclear weapons programs. At Kansas City, he managed many of the functional elements critical to success at Pantex: quality, conduct of operations, engineering, program management, manufacturing and process improvement. Mr. Mallory also served as vice-president of operations for Honeywell's commercial avionics business.

Mr. Mallory received his bachelor's degree from Missouri School of Mines and Metallurgy and his MBA from Rockhurst College.
